A re-porter nearing suggestions of this character consulted several old residents and physicians on the subject. The doctors agreed that the effect of the floods after subsidence was spit to be felt in prevalent sickness. They did not think there was any occasion for serious atarm, but suggested the desirability of extreme care about the sanitary condition of premises, which have been overflowed. One physician reminded the reporter that in the summer of 1881, following the freshets of February and June, there was a great deal of sickness on the Island, all confined to the submerged portions. Results About Town-Railroad Traffic Interfered With.

If this horrible rainy sesson ever comes to an end the Board of Public Works will have it thands full cleaning up. The heavy rain that commenced early yesterday morning and continued during the day played havoe on all the streets leaning down from the bills. The gutters were rushing torrents; cobble stones were torn out of the streets in places and deposits of thick a slimy, yellow and black mud were to be found on every corner. The one topic of conversation was the rain and the weather generally. The oldest inhabitant finds himself nearly 'knocked out' lately; the rain fall of the past two weeks is almost unprecedented in this section of the country for this season of the year. In some places the sewers clogged up and cellars were overflowed. The weather yes erday was of that warm, atloky, naure, which induced headaches and caused every one 10 feel miserable. About 4 o'clock the creek commenced to swell and run out.

A o'clock the creek commenced to swell and run out.

Travel on the railroads has been seriously interfered with. Train No. 10 on the B. & O. from the Eist, arrived in the city on her regular time last night, 12:15 o'clock, but was not allowed to proceed over the river. Trains coming from the West are stopped at Newark. The road between that point and this is deemed unsafe on account of the heavy rains which have caused washouts, and the swollen condition of the creeks, which may make the bridges weak. The evening train from Washington on the Hempfield was over two hours late, being obliged to run slow. The creek has washed the banks badly in some places.

At the night session of the House of Delegates last evening, Mr. Woods called Mr. Evans to the chair and moved to take up House bill No 171, the bill to empower the Council of Wheeling to contract the corporate limits of the city. The motion prevailed. Mr. Burtt autagonized the bill, while Messra. Dovener, Stifel and Woods favored it. The former, after a long speech against it, moved to lay it on the table. This the House refused to do. An amendment was made on motion of Mr. Woods, providing that no property so excluded from the corporate limits of the city should be exempt from payment of its fair proportion of any indebtedness existing at the time it was so excluded.

Mr. Powell, of Tayler, wasted to stipulate that the contraction of the city limits contemplated by the bill should only be for the purpose of inducing a railroad company or companies to locate a depot or depots or machine shops within the corporate limits as they exist before the change, and Mr. Burtt would have limited it to depots only, but the House rejected both propositions.

Mr. Burtt then moved to add a provision that the bill should not take effect until it had been submitted to a vote of the citizens of the city, and received a majority of the votes cast. This brought up the old fight. Mr. Burtt referred to the levislation of last veen reaches.

#### THE TWO OPERAS. Given by the Gorman Company Yes

terday. The Gorman Opera Company executed Gilbert & Sullivan's "Patience" at the Opera House yesterday. Executed is a pretty good word, for with the exception of one or two, the members of the company are not equal to the beautiful music of the opera. Miss Carson's Patience, like everything she has yet Carson's Patience, like everything she has yet assayed here, was very pleasingly persons led, and Mr. Arthur's Grossenor had some fine, points. The chorus was up to the average, but the entire performance soffered by comparison with the original presentation of the opera here by Haverly's company.

Last night "The Pirates of Penzance, or the Slave of Duty" was given. The remarks concerning the matinee performance apply to this. Miss Carson made a more than satisfactory Mabel, and Mr. Arthur made a better impression as Frederick than in either of his former characters. The operas given by the company were all fairly done, and this is the best that can be said of them in general.

He Always Votes "No."

Mr. Davis, member of the House of Delegates from Ritchie county, has one distinguishing characteristic. In the transactsons of the House he nearly always votes "no."
